into your website or app)

Some feedback from the users

Art and blockchain coming full circle - I loved the experience, [Hélène!](#) Technology is at its best when people can use it without needing to know the technical steps involved. 🙌🙌

Le souvenir beau, intelligent, durable, générateur de lien : le kdo parfait !

How do you fuse the traditional home of Impressionist Art with cutting edge digital blockchain technology and NFTs?

This fantastic venture by the Musée d'Orsay showcases a perfect synthesis of the humanities and technology. Excellent.

J'aime beaucoup le principe - continuez

Yes !! I get -15% off in the shop

J'espère que je pourrai trouver des souvenirs digitaux dans tous les lieux importants que je visiterai dans le monde.

Bravo 🙌 pour ce partenariat qui apporte une vision nouvelle 🔥 belle innovation 🙌
😊

Répondre

Une fusion parfaite entre la technologie moderne et l'art classique! 🖼️🎨

J'adore 🙌🙌🙌🙌🙌

Répondre

J'espère gagner l'accès à vie ! 🙌

I really enjoy collecting this new type of souvenir

a month ago

Avantages très sympas !

a month ago

C'était une expérience vraiment passionnante ! J'aurais aimé que cela reçoive plus d'attention médiatique.

The best part?

You do not have to be familiar with web3 or wallets to purchase and use one of the NFTs - you can simply buy them for 8,90€ and 20,00€ using your credit card and register an email - the wallet gets created automatically in the background. You can still transfer the NFT to your own wallet if you prefer and know how to do that. Otherwise, the NFT remains accessible via a user-friendly web interface as well.

That's how easy onboarding looks like. 🙌🙌

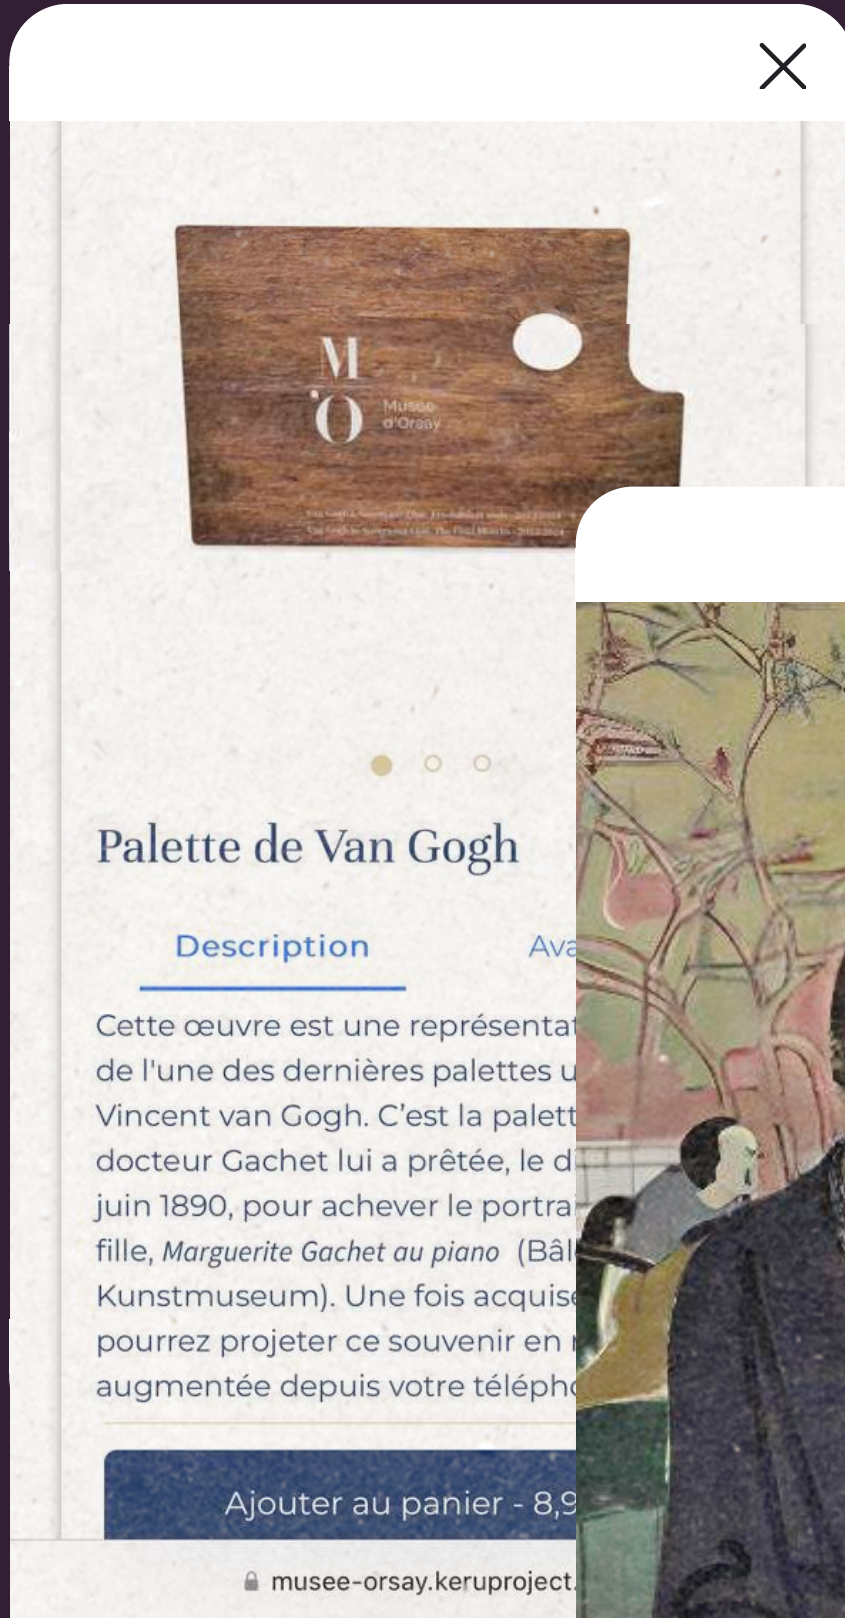

J'espère que je pourrai trouver des souvenirs digitaux dans tous les lieux importants que je visiterai dans le monde.
